Naval Bill Passed by the House Has No Appropriation for Battleships.

> AIR BLUE IN VICINITY OF EXECUTIVE MANSION

MAKE HIM APPEAR RI-DICULOUS.

Washington, April 22.-President Roosevelt will veto the naval appropriation bill should the senate, as did the house, fail to make any appropriation for the two battleships which are authorized in the measure. The prompt announcement of this fact to the senate leaders today is regarded as responsible for the announcement by Mr. Hale that he would propose an amendment appropriating \$7,000,000 toward the construction of those ships.

#### Roosevelt Was Emphatic.

The president stated his position on this point with his usual emphasis and suddenness today, upon learning that the bill as passed by the house was simply a "paper" provision for naval increase. Authorization of the ships was made, but no money carried to make the provision effective. Such legislation as this, the president made known to his numerous congressional callers, was a travesty as to effectiveness, as well as bearing all the earmarks of legislative legerdemain intended to make ridiculous his campaign for the greater navy.

#### Threat of Veto Effective.

That the president's quick and vigorous action is to be effective is evidenced by the action of Chairman Hale of the senate naval committee in announcing that at the proper time he will propose the \$7,000,000 amendment. As to his threat of veto, the president made it plain that should the wisdom of congress result in the passage of a bill providing for no naval increase whatever, he would have no ground whatever upon which to veto the measure. Any attempt at what he regards as a travesty on legislation by authorizing and not appropriating for ships be declares he will defeat by the exercise of his constitutional power to veto.

#### Fighting for Four Battleships.

There is not the slightest indication that the president has ceased his fight for four new battleships, according to the evidence of senators who talked ith him today. Senators who are with the president in his fight on this proposition admit tonight that a careful surprogram for four ships.

## Lodge Has Quit the Fight.

Significance is attached to this poll program advocated by the president, and to have given his reasons personally to the president for so doing. The loss of the influence of the Massachu- street. setts senator is regarded as responsible for the weakness shown by the poll, as it is believed by those favoring the program that had the president's senatorial supporters entered the fight with the vigor he has evidenced his desire in this direction might have been realized.

## DEBATE IN THE SENATE.

Why the Appropriation Was Left Out of the Naval Bill.

Washington, April 22.—When considera-ion of the naval appropriation bill was resumed in the senate today Mr. Hale, referring to a publication "in a New York paper," which, he said, announced war outside and inside the senate, explained why an appropriation for two new battieships and submarines had not been placed in the bill either in the house of the senate. The house, he said, voted the appropriation down on the ground that it would not be needed until next December, and the senate committee had not put it in the bill because no estimate of the amount that could be expended of the amount that could be expended had been received from the department.

THINKS CONGRESS IS TRYING TO NARROW ESCAPE OF J. L. GALLA-GHER AND FAMILY FROM DEATH IN OAKLAND.

> Oakland, April 22 .- An evident attempt was made upon the life of J. L. Gallagher, one of the main witnesses for the prosecution in the San Francisco bribery cases, tonight, at the home of William H. S. Schenck, his brother-in-law, at East Twentieth street and Nineteenth avenue, Eåst Oakland, when a huge bomb placed in the porch exploded and tor-away the whole front of the house.

#### House Wrecked.

Gallagher was upstairs with his wife at the time, and Schenck was in a rear room with his wife and four children and Dr. Guy Brown. All escaped but one boy, who was hit in the neck by a flying missile. That none was killed was little short of a miracle. Gallagher's hat was pierced by a splinter and taken hat was pierced by a splinter, and taken away as a souvenir. The house was completely wrecked.

The report was heard all over Oakland and many windows in the neighborhood were broken and a post belonging to the porch was hurled 100 feet away.

#### Great Crowd Soon Gathered.

So quickly did the news spread that Gallagher's home was dynamited that 2,000 people were on the premises in a few moments. The former supervisor was espied in the crowd and some one re-
